

pref_base_c

```
graph BT; A[pref_base_c] --> B[pref_dummy_c]; A --> C[pref_stride_c];
```

A diagram showing a hierarchical relationship between three variables. At the top is a box labeled 'pref_base_c'. Below it, a horizontal line connects two boxes: 'pref_dummy_c' on the left and 'pref_stride_c' on the right. An arrow points from the center of this horizontal line up to the bottom of the 'pref_base_c' box, indicating that 'pref_base_c' is derived from or dependent on the other two variables.
